

IST Recruiting Partners Program

IST Recruiting Partners are government and industry organizations that invest in the college to support students and develop long-lasting, strategic partnerships.

These organizations are committed to enhancing professional development skills in emerging professionals, have a deep understanding of the college's majors, and often have a considerable Penn State and College of IST alumni presence at their organization. With their investment, Recruiting Partners receive additional recruiting and engagement access to students, strengthen their organization's reputation among students, and help guide the college's future.

If your organization is interested in becoming an IST Recruiting Partner, visit ist.psu.edu/recruiting-partners.
