

Promotion and Tenure Committee Chair Responsibilities IST_AC-13 Administrative Guideline

The Chair of the Promotion and Tenure Committee shall set the context for discussion of the candidate's documentation by reviewing the candidate's appointment and responsibilities, criteria for promotion and tenure, and the procedures to be followed during the meeting. The Chair of the Department's Promotion and Tenure Committee is responsible for ensuring that the discussion at the meeting considers only the content of the candidate's documentation. The Chair of the Department's Promotion and Tenure Committee should also remind committee members of the importance of confidentiality throughout this process and that this expectation does not end when the committee completes its work.

College Review

The Chair of the Promotion and Tenure committee shall oversee the following reviews.

- Second-Year
- Fourth-Year
- Sixth-Year
- Promotion to Full Professor with Tenure
- AC-40 Post-Tenure Reviews (Extended Review)

SRTE Summaries

The Chair of the Promotion and Tenure Committee will write a brief summary of SRTE student comments for all candidates being reviewed. It is critical that this summary be objective and accurately represent the candidate's strengths and weaknesses. The goal should not be to evenly balance strengths and weaknesses, but to accurately reflect the balance of strengths and weaknesses that exist in the candidate's record. Ideally, the summary would reflect trends that exist within or across classes, not unique one-off observations of an individual. Full SRTE comments are gathered by the Dean's Office administrative staff and included in the candidate's supplemental materials which are provided to the committee chair and members for their review.

- Second-Year
- Fourth-Year
- Sixth-Year
- Promotion to Full Professor with Tenure
