This handbook aims to acquaint faculty employees with the University’s various policies, services, and facilities that will directly affect them during their careers at Penn State and in the College of Information Sciences and Technology. This resource is prepared as a ready reference to answer the questions most frequently asked by employees. However, it is not intended to be definitive on policy matters, nor does it grant substantive contractual rights to University employees.

Dean’s Welcome
The College of Information Sciences and Technology at Penn State is dedicated to educating the next generation of leaders for the digital 21st century. About the College
In Penn State’s College of Information Sciences and Technology, our staff support students, faculty, and programs that use technology and leverage information to solve real-world problems. We offer associate, bachelor’s, master’s, and doctoral degrees – both in-residence and online – in emerging fields such as information sciences, cybersecurity, enterprise architecture, and data sciences.

The backbone of our college is built on IST faculty partners like you. We aim for our faculty to be recognized as the best and the brightest at the University. They strive to be self-motivated innovators and knowledge workers in their own right, and they collaborate to find new and better ways to provide higher value in all that we do.

IST Core Values
The College of IST’s core values are those that form the foundation on which we perform work and conduct ourselves. Our core values are a common thread that is woven into our decision making and planning processes. In an ever-changing world, core values remain constant. In 2006, we identified the following six core values for our college, and we aim to uphold them through our work every day:

- Community
- Diversity
- Respect
- Open Communication
- Work/Life Balance
- Customer Service
Ethics and Responsibilities

Office of Inclusion and Diversity Engagement
The Office of Inclusion and Diversity Engagement aims to create a welcoming climate that is open to inclusive excellence defined by the full integration of every member of the IST community and an engagement of diversity that empowers every student, faculty, and staff member to develop their unique talents to make the broadest impact on the world.

University information related to diversity and inclusion can be accessed through the Office of Educational Equity.

Background Checks at Penn State
Background checks must be completed for any individual, 18 or over, paid or unpaid, who is engaged by Penn State in any work capacity. This includes all employees (full-time, graduate assistants, part-time/wage payroll), volunteers, working with minors, adjunct faculty, consultants, contractors, or other similar positions. All individuals must have a completed and favorable background screening on file prior to engaging in any work.

Penn State policy HR99 outlines the process for conducting background checks. For questions regarding Penn State background checks, please contact IST’s Office of Human Resources.

Sexual Harassment
Sexual harassment of faculty, staff, or students is prohibited and will not be tolerated at Penn State. It is the policy of the University to maintain an academic and work environment free of sexual harassment. Sexual harassment violates the dignity of individuals and impedes the realization of the University’s educational mission. The University is committed to preventing and eliminating sexual harassment of faculty, staff, and students through education and by encouraging faculty, staff, and students to report any concerns or complaints about sexual harassment. Prompt corrective measures will be taken to stop sexual harassment whenever and wherever it occurs.

Faculty Performance

Faculty Annual Reviews (FAR)
It is Penn State policy that each member of the faculty undergo an annual performance evaluation. This is an opportunity for each faculty member’s performance in the areas of teaching and learning, administration, outreach, research, and service to be reviewed by the college. The purpose of the evaluation is to improve communication about performance expectations, accomplishments, opportunities for professional development, and prospects for promotion, re-appointments, and salary increases. Please contact the Office of Faculty Affairs for information regarding Faculty Annual Reviews.

Activity Insight System/Digital Measures Database
The Activity Insight System (AIS) is an online tool used in the college and across the University to input faculty information for preparation of Promotion and Tenure dossiers and Faculty Annual Reviews. The AIS Digital Measures Database includes the ability to produce a Curriculum Vitae from an individual's data that has been entered into the system. The tool allows for standardized reporting for Promotion and Tenure dossiers across the University and for Annual Faculty Activity and Goal Setting reports across the college. For more information, please contact Penn State Activity Insight.

Promotion and Tenure
An equitable and widely-understood Promotion and Tenure system contributes to academic excellence and ensures that considerations of academic quality are the basis of academic personnel decisions. The Promotion and Tenure process in the college is overseen by the Dean’s Office.
