Media Release Form

I ask that my minor/dependent be admitted to participate in iTech Academy Propose an App Challenge, sponsored by The Pennsylvania State University. In consideration of such admission, I do hereby agree to release, discharge, and hold harmless The Pennsylvania State University, its trustees, officers, agents, volunteers and employees of and from all causes, liabilities, damages, claims, or demands whatsoever arising out of the minor's participation in the Program.

I grant permission to The Pennsylvania State University and its agents or employees to use photographs and/or video taken of my child as part of my child's participating in this Program for use in promotional and educational materials such as brochures, newsletters, advertisements, and magazines, and to use such photographs/video in electronic versions of the same publications or on Penn State Web sites or other electronic forms of media, and to offer them for use or distribution in other non-college publications, electronic or otherwise, without notifying me. Furthermore, I authorize the use of my child's name, likeness, and voice for all program promotion, institutional promotion, and any other purposes in connection with the program deemed appropriate and necessary by Penn State.

I hereby waive any right to inspect or approve the finished photographs/video or printed or electronic matter that may be used in conjunction with them now or in the future, whether that use is known to me or unknown, and I waive any right to royalties or other compensation arising from or related to the use of the photographs/video.

I hereby agree to release, defend, and hold harmless The Pennsylvania State University and its agents or employees, including any firm publishing and/or distributing the finished product in whole or in part, whether on paper, via electronic media, or on Web sites, from and against any claims, damages, or liability arising from or related to the use of the photographs/video, including but not limited to any misuse, distortion, blurring, alteration, optical illusion, or use in composite form, either intentionally or otherwise, that may occur or be produced in taking, processing, reduction, or production of the finished product, its publication, or distribution.
